

30,000 HOURS LATER. Still Original.

That's what happens when you start smart -
and lube smarter.

Molub Alloy 777-2 NG keeps heavy-duty
performance running strong, hour after hour.

THE CHALLENGE

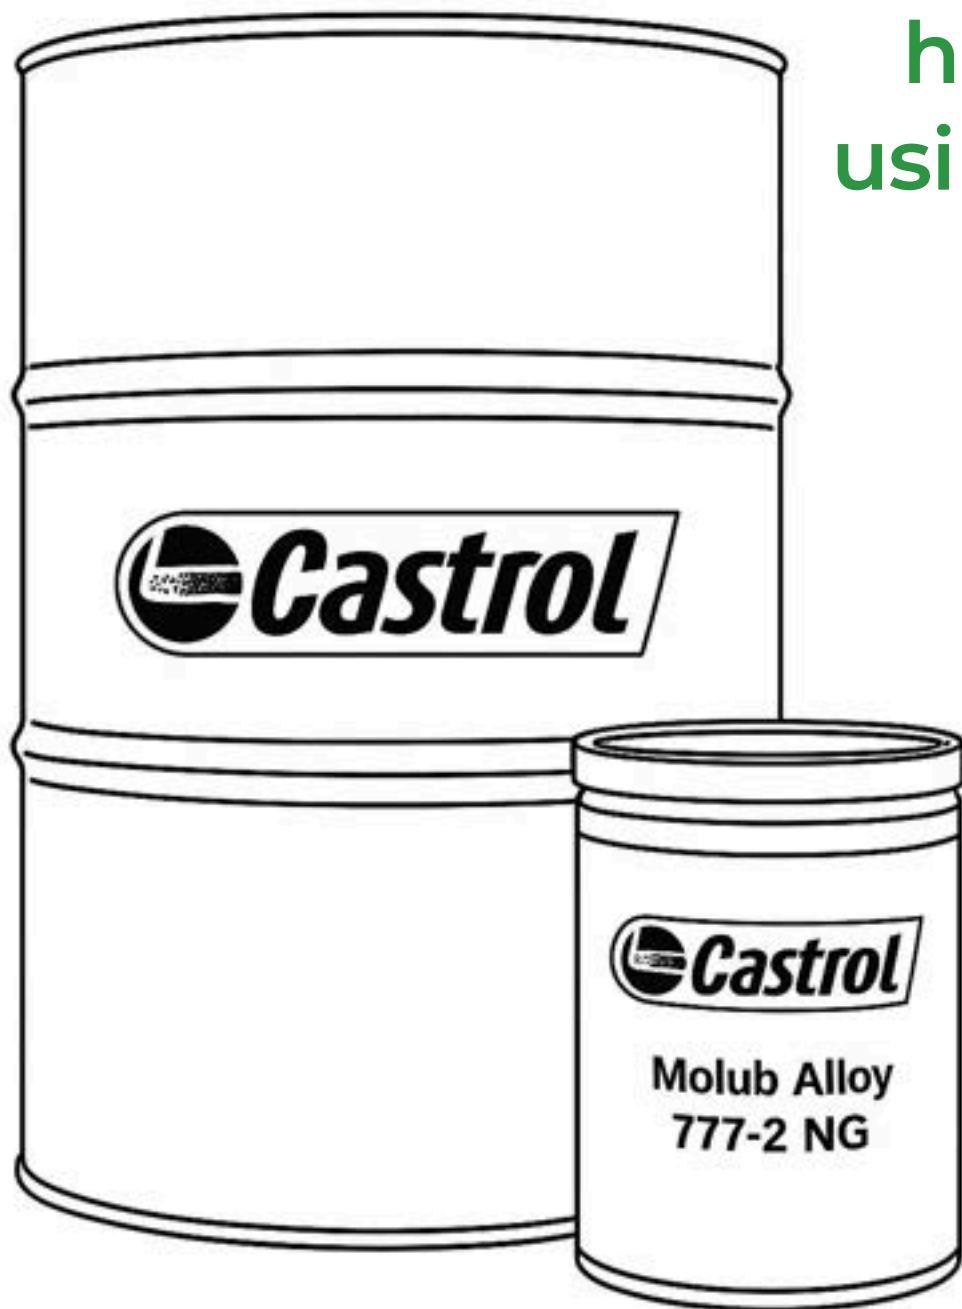

Demag H 455 pins and bushes operate in **dusty, high-load conditions** - a recipe for wear and early failure.

- High friction under heavy loads
- Increased maintenance intervals
- Risk of costly replacements and downtime

THE SOLUTION

IDENTIFY. AGREE. DELIVER

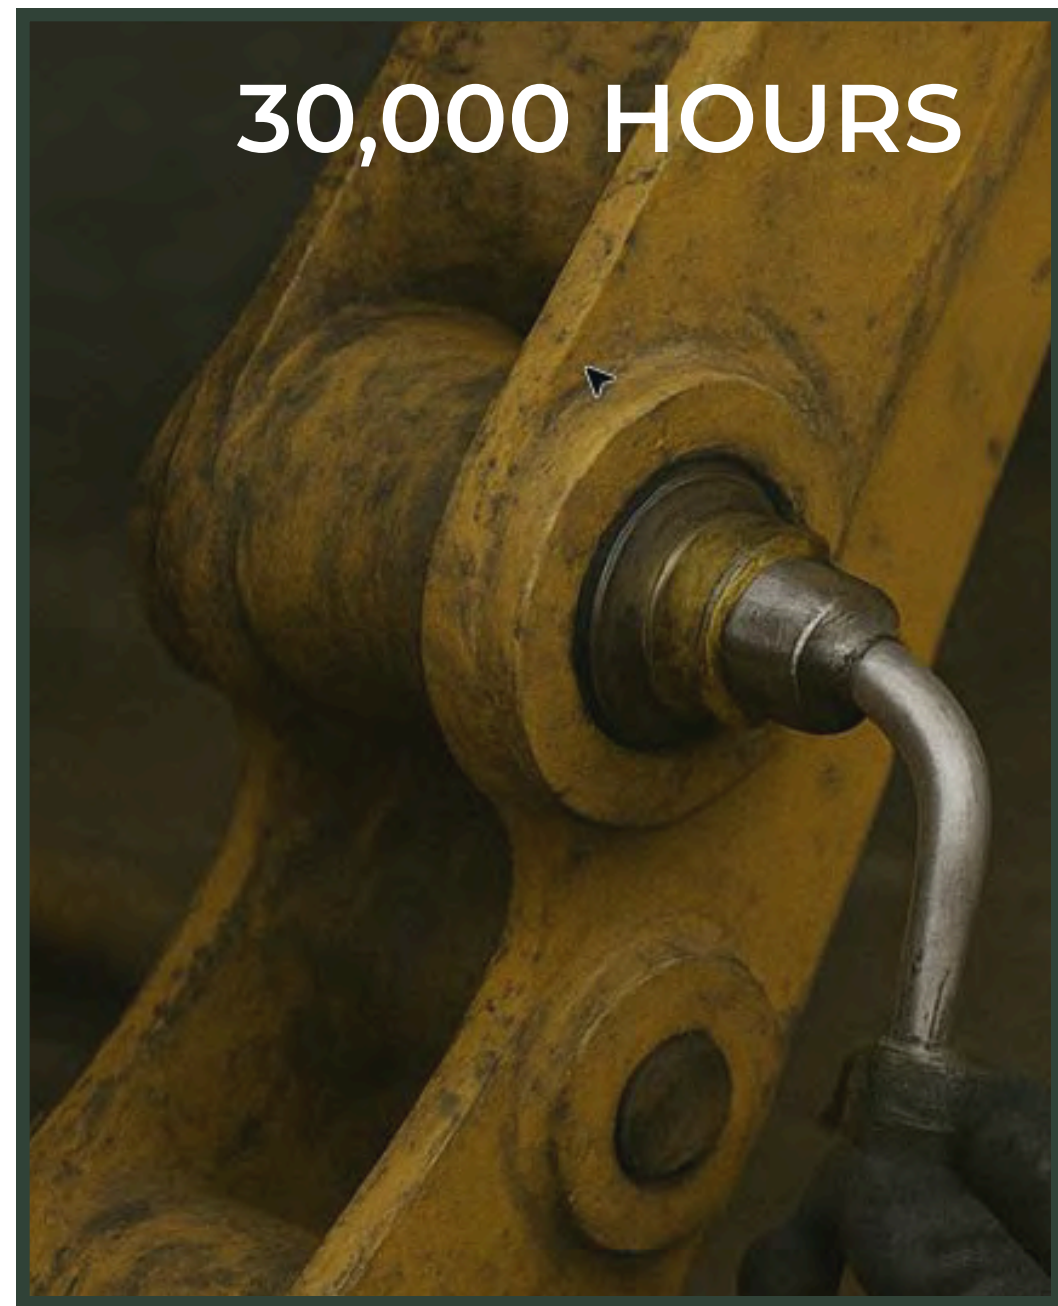

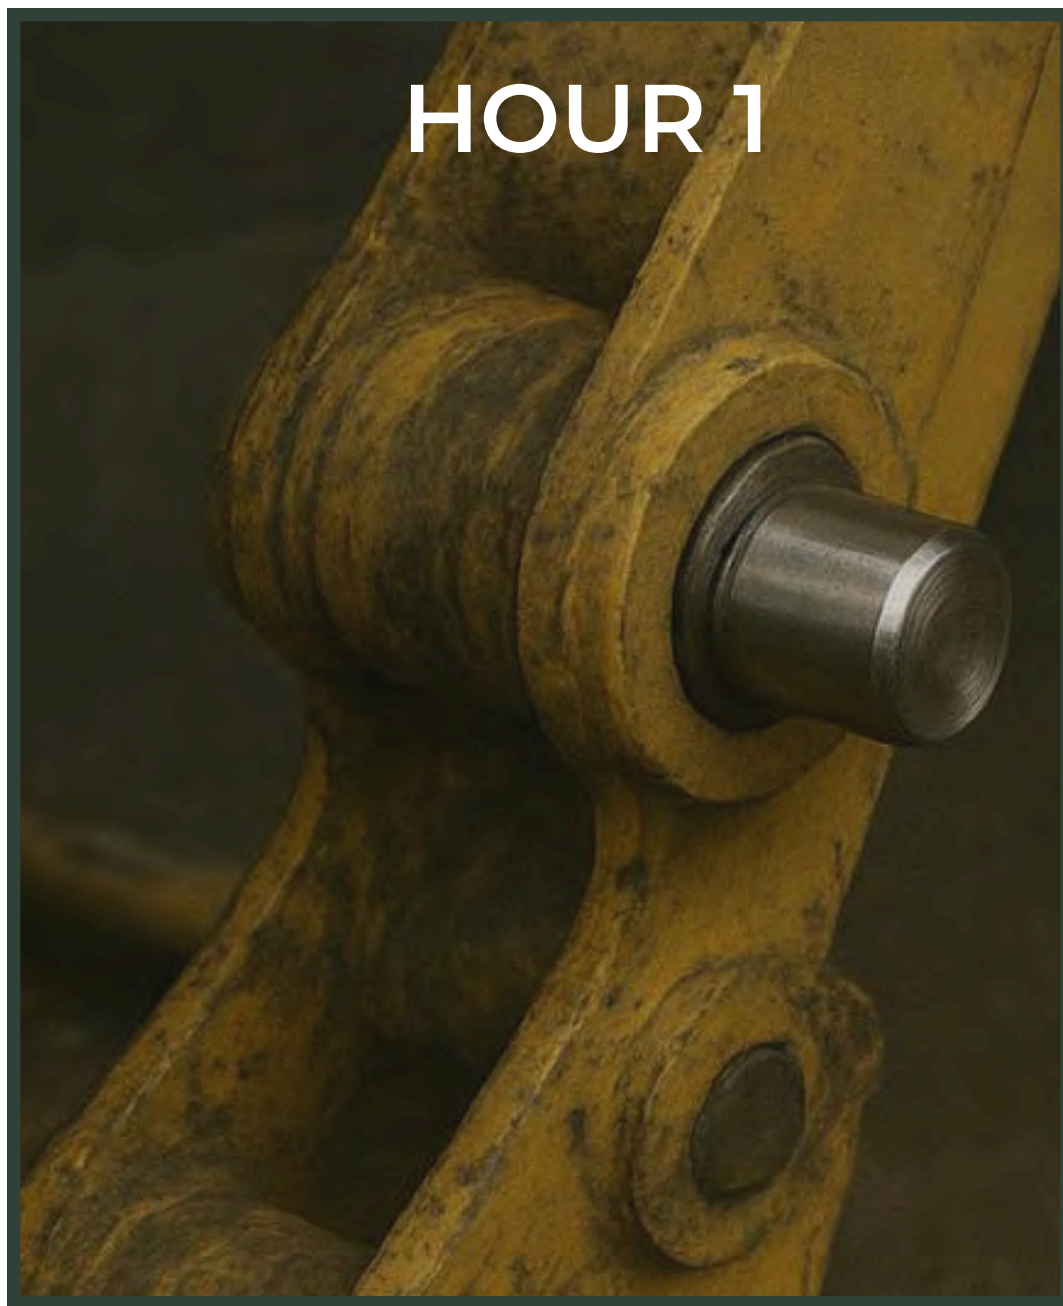

Working with the mine, we implemented a high-performance lubrication strategy using Molub Alloy 777-2 NG from day one.

- ✓ Maximum component lifetime
- ✓ Lower lubricant-related maintenance
- ✓ Reduced operating costs
- ✓ Maximum equipment availability

THE RESULT

STILL GOING STRONG

- ✓ Pins and bushes still original after 30,000+ hours
- ✓ Minimal maintenance required
- ✓ Lower operating costs
- ✓ Maximum machine availability

THE KEY IMPACT

EVERY HOUR COUNTS

At **LPR Group**, we don't just extend component life - we extend possibilities. From collaboration to delivery, we make every hour count.

Molub Alloy 777-2 NG

Smart lubrication. Proven results.
